

Elmont Union Free School District

CULTIVATING SCHOLARS AND GLOBAL CITIZENS

AL HARPER
Superintendent of Schools

June 5, 2020

Dear Community Members,

Our community is in the midst of dealing with a national health pandemic that has devastated our nation, while at the same time we are all struggling with the issue of racial equality.

The Elmont community has always prided itself on its diversity and willingness to welcome students and their families from different races, nationalities and religions. Our diversity has always been a source of pride for us as a community and we have always rallied together, (parents, teachers and community), during difficult times.

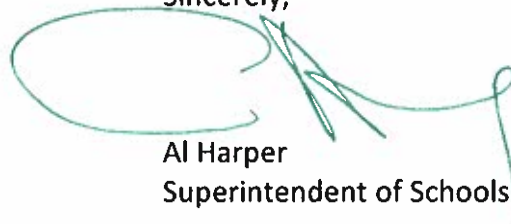

As educators, we feel it our duty to be positive role models for our children. During these challenging times, please know that our District's faculty and staff, including our school wellness teams, (consisting of counselors, social workers and psychologists), are here to address and support the individual needs of our students and their families. Social-Emotional Learning will continue to be a major focus, as our teachers meet virtually with our students. Our clinicians collaborate with our teachers to heighten their awareness to address questions and concerns students may have regarding the daily events that are affecting us all.

Please feel free to use the link below which contains the resources our teachers use while crafting lessons for our students every Friday.

While we are not physically together at this time, please know that we care about each and every member of our school community and remain committed to supporting the social and emotional well-being of all.

Sincerely,

Al Harper
Superintendent of Schools
