Elmont Union Free School District District-Wide School Safety Plan

(This Safety Plan Template has been developed by Nassau BOCES for the exclusive use of Nassau County School Districts participating in the Nassau BOCES Health & Safety Training and Information Service. The Plan was written in order to comply with the requirements of the New York State Safe Schools Against Violence in Education (SAVE) legislation. This Plan should be customized as necessary to reflect individual school districts compliance efforts. This Plan is a general, overarching document that can be shared with the public and posted on school district websites by October 15th of each school year as required by law. Parts of the Plan which may include names, contact information and personal information can be redacted for posting purposes. This Plan can also serve as a document for both in-district personnel and the public to better understand the overall requirements of the SAVE legislation. This contrasts to the Building-Level Emergency Response Plan which details specific emergency response procedures, and as such, is a confidential document which cannot be shared with the public, cannot be foiled and is protected under law.)

Elmont Union Free School District District-Wide School Safety Plan

Policy Statement

The **District-Wide School Safety Plan** (as required by the SAVE Law – Safe Schools Against Violence in Education – Commissioner of Education Regulation 155.17) has been established to provide for the safety, health and security of both students and staff and allows for input from the entire school community. This particular component of Project SAVE is a comprehensive planning effort that addresses risk reduction/prevention, response and recovery with respect to a variety of emergencies that may occur in the school district and its component school buildings.

The Board of Education has appointed, under the direction of the Superintendent of Schools, a **District-Wide School Safety Team** to develop, implement and maintain all provisions of the Plan. This Plan incorporates all **Building-Level Emergency Response Plans** that have been developed by the **Building-Level Emergency Response Teams** appointed by the **Building Principals**. In the event of an emergency or violent incident, the initial response at an individual school building will be the responsibility of the school building **Emergency Response Team**. Upon activation of the school building **Emergency Response Team** the Superintendent of Schools or designee and appropriate local emergency response officials will be notified. The nature of any given emergency will dictate the degree of interaction with both State and Local Emergency Response Agencies. The local BOCES Health & Safety Office will assist in development of protocols for accessing these services.

The **District-Wide School Safety Plan** was made available for **public comment 30 days prior to its adoption** and provided for participation of the entire school community. The District-Wide and Building-Level Plans were formally adopted by the School Board after at least one public hearing. As required by law, the **District-Wide School Safety Plan is posted on the school district website by October 15th of each school year (the Plan may be abridged for posting purposes)** and will be reviewed annually by the District-Wide School Safety Team **by September 1st of each school year**. **Building-Level Emergency Response Plans will be updated by September 1st of each school year** by the Building-level Emergency Response Team and **filed with both State and Local Police by October 15th of each school year**.

The school district refuses to tolerate violence or threats of violence on school grounds and, by implementation of this Plan, will make every effort to prevent violent incidents from occurring. We will provide the appropriate authority and budgetary resources in support of this effort. Violence prevention is the responsibility of the entire school community and we encourage participation of all individuals. Our Plan requires the prompt reporting of all violent incidents or threats and assures that victims or reporters of incidents of violence will not be discriminated against.

A copy of the District-Wide School Safety Plan is also available upon request at central administration in the office of the Superintendent of Schools. Although the Building-Level Emergency Response Plans are linked to the District-Wide School Safety Plan, in accordance with Education Law Section 2801-a, the **Building-Level Emergency Response Plan will remain confidential and not be subject to disclosure**. This will further ensure safety at the building-level and reduce the potential for planned sabotage.

Training, Drills and Exercises

The best way to train students and staff on emergency response procedures is through annual drills and exercises in each school building. After each drill/exercise or real event, teachers in each classroom will review the purpose of the drill with students. Based on the determination of the District-Wide School Safety Team and the Building-Level Emergency Response Team, at a minimum, the following methods may be used:

- Early Go-home drill
- Live drill including shelter-in-place, hold-in-place, evacuation, lockdown, and lockout. • Live drill for specific responses (hostage taking, bomb-threat, etc.)

- Situational Drills
- Table top exercises
- Emergency Response Team exercises
- Building pre-clearance searches

The school district recognizes that critical evaluation of drills and exercises is the best learning experience and results in improved response procedures. As a result, the district will invite local agencies to participate in and to help evaluate all exercises. These agencies may include but not be limited to the Police and Fire Departments, Rescue and Ambulance Services, Local Office of Emergency Management and the local BOCES Health & Safety Office. The school district, at least once every school year, shall conduct one test of its emergency response procedures under each of its Building-level Emergency Response Plans including sheltering, lockdown, or early dismissal. Eight (8) evacuation and Four (4) lockdown drills will be completed in each school building every school year. Debriefings will occur after every drill or actual event.

Implementation of School Security

School safety personnel will help carry out the District-Wide School Safety Plan and may include anyone in the school community. These individuals have received appropriate annual training as required under the Regulation. Such training has been conducted in cooperation with the Police Department. These individuals are not to be confused with school security guards that we employ who are regulated under the New York State Security Guard Act that requires specific training, fingerprinting and background checks. All our Security Guards receive 8-hours of pre-assignment and 16-hours of in-service training along with an additional 8-hours of annual refresher training. Our contracted security company is a New York State licensed agency and all our **security guards** are also individually licensed.

Appropriate school building security measures and procedures have been determined by the District-Wide School Safety Team and Building-Level Emergency Response Team after review of school building procedures and practices, emergency response plan, code of conduct, security surveys/audits, and building-level climate surveys. Based on these findings we have implemented the following security measures:

- All school doors are locked throughout the day.
- Individuals wishing entrance must be buzzed in, show photo identification and sign in through the Lobbyguard Visitor Management Kiosk.
- Cameras, mirrors, and intercoms have been installed throughout the district.
- New security features include the capability of locking doors of general assembly areas: gyms, auditoriums, and cafeterias in the event of a lockdown.
- Random searches may be considered if deemed necessary.
- The district employs nighttime security guards that are assigned throughout the district. These guards check the buildings and grounds during the evenings and weekends.
- We will employ any other methods deemed necessary and constantly review our current practices. **Vital**

Educational Agency Information

Each Building-Level Emergency Response Plan will contain vital information such as school population, number of staff, transportation needs and telephone numbers of key educational officials.

Early Detection of Potentially Violent Behavior (Information & Training)

The District-Wide School Safety Team will make recommendations for appropriate annual training for students and staff in violence prevention and mental health (on-line training may be utilized). Training will include early warning signs of potentially violent behavior and early intervention/prevention strategies. Training will be conducted by in-house staff, local agencies or others as deemed appropriate. New employees will receive training within 30 days of hire. Training for students and staff will be conducted annually and include:

- An explanation of what constitutes school violence and a description of the school Code of Conduct. Written information on early detection of potentially violent behavior and a summary of the Code of Conduct.
- Dissemination of the New York State Office of Mental Health one-page handout *What Every Teacher Needs to Know – Recognizing Suicide Risk in Students* and review of the “FACTS” warning signs.

- The district will utilize any resources available for violence prevention and mental health training including those found at the following websites: http://www.p12.nysed.gov/sss/documents/MentalHealthResourcesfor_Educators.pdf and <http://www.p12.nysed.gov/sss/documents/SVPIRequiredComponents.pdf>.
- A description of the school district's Violence Prevention Program and Safety Plan.
- Information on how to report incidents of violence including threats and verbal abuse.
- How to recognize and respond to school security hazards.
- Review of measures implemented to prevent school violence such as use of security equipment and safety procedures and how to diffuse hostile situations.
- How to summon assistance in the event of an emergency.
- Special procedures for bomb threats, hostage-taking, intrusions and kidnapping.
- Post-incident procedures including medical follow-up and the availability of counseling and referral.
- Student training will include post-drill or actual event review by classroom teachers.

Other methods for informing parents and students:

- Operation Pride through Nassau County.
- Communication to parents on violence prevention and early recognition. • Conflict resolution programs.

Records will be maintained of all participants along with their evaluation of the training program. Trainers will be knowledgeable and familiar with our District-Wide School Safety Plan.

Hazard Identification

As part of each Building-Level Emergency Response Plan, each Building-Level Emergency Response Team will determine sites of potential emergencies that may impact the individual school building. Such sites may include but not be limited to all school buildings, playground areas, properties adjacent to schools, off-site athletic fields, buses and off-site field trips. Specifically defined areas of current concern include:

- Proximity to Kennedy Airport
- Belmont Racetrack
- Various shopping areas across the District
- Propane tanks on Hempstead Turnpike near Elmont Road
- Water tower near Dutch Broadway
- Dutch Broadway Athletic Complex
- Train tracks & power lines near Stewart Manor School
- Alva T. Sanford Complex • NCPD 5th Precinct
- EFD 7 sites: 96 Gotham Ave. 36 Plainfield Ave., Elmont Rd. & Tarboro St., 2019 Linden Blvd., 301 Meachem Ave., 95 Lehrer Ave., and 100 School Rd.

Responses to Violence (Incident reporting, Investigation, Follow-Up, Evaluation, and Disciplinary Measures)

All incidents of violence, whether or not physical injury has occurred (verbal abuse, threats of violence, etc.), should be reported immediately and documented through the **School Safety and Educational Climate (SSEC) Summary Data Collection Form as part of the Dignity for all Students Act (DASA) and Violent and Disruptive Incident Reporting (VADIR)**. With the realization that employees and students may otherwise be reluctant to come forward, we will maintain confidentiality. Anonymous reporting systems will be utilized if deemed necessary. Individuals will be assured that there will be no reprisal for reporting their concerns. Incidents will be reported as follows:

The School Building Principal/Administrator or Designee will be responsible for receiving and responding to all incident reports including anonymous reports. Information on the reporting process for students and staff will be provided as part of the violence prevention training program. Each incident will be reported to and evaluated by the District-Wide School Safety Team (Threat Assessment Team) for the purpose of compiling data and evaluating the Violence Prevention Program.

Relationships have been established with the Police Department and other emergency response agencies at the building level. Representatives from these agencies participate on Building-Level School Safety Teams.

Reporting:

Once an incident has been reported, and depending on its severity, the School Building Principal/Administrator or Designee will assume responsibility as the Incident Commander.

- Report it to the Police Department.
- Secure the area where the disturbance has occurred.
- Ensure the physical safety/medical management of students/staff remaining in the area as soon as possible.
- Ensure that while responding to the incident, the remainder of the building remains appropriately supervised.
- Quickly assess the area of the incident to determine damage as a result of the incident and if it is safe to remain. If necessary, evacuate or shelter as per the Building-Level Emergency Response Plans.
- Provide incident debriefing to students/staff as needed. Notify parents.

Investigation:

After the incident has occurred the Threat Assessment Team will conduct a detailed investigation. It is the purpose of the Team to focus on facts that may prevent recurrence, not find fault. The Team conducting the investigation will:

- Collect facts on how the incident occurred.
- Record information.
- Identify contributing causes.
- Recommend corrective action.
- Encourage appropriate follow-up.
- Consider changes in controls, policy and procedures.

Follow-up:

The school district recognizes the importance of responding quickly and appropriately to the medical and psychological needs of students/staff following exposure to a violent incident. All individuals affected by a violent act in the school district will be provided with appropriate medical and psychological treatment and follow-up. Provisions for medical confidentiality and protection from discrimination will be included to prevent the victims of violent incidents from suffering further loss.

Evaluation:

The District-Wide School Safety Team (Threat Assessment Team) is responsible for ensuring that an initial school building security analysis is conducted and periodically re-evaluated. These physical evaluations will focus on the identification and assessment of school building security hazards and address necessary changes in building practices. These evaluations will review the potential for different types of violent incidents including bomb threats, hostage-taking, intrusions, and kidnapping. Professionals will be utilized from local law enforcement and private consultants as necessary.

Disciplinary Measures:

The school district Code of Conduct will be the basis for determining the appropriate disciplinary measures that may be necessary.

Code of Conduct:

The school district has created a detailed Code of Conduct to describe the expected behavior of students, staff and visitors to school buildings and the disciplinary actions resulting for violations of the Code. The Code, which will be communicated to all students/staff and parents, will serve as a major component of our violence prevention program. The Code will be evaluated annually and revised as necessary to reflect changes in school policies and procedures. A copy of the Code of Conduct will be made available to students, parents, staff and community members. **The Code of Conduct was updated on July 2013, made available and posted on our website.**

Emergency Response Protocols Notification and Activation (Internal and External Communication)

Quick and accurate contact with appropriate law enforcement officials is essential in the event of a violent incident. These relationships have been established by participation of local response officials on Building-Level Emergency Response Teams. These individuals and appropriate means of contact are documented in the Building-Level Emergency Response Plan.

Internal communication is also of prime importance and will be specifically defined in the Building-Level Emergency Response Plan. Depending on the nature of the emergency, some of the communication methods will include telephone, fax/e-mail, district radio system, NOAA weather radio, intercom, local media, emergency alert system, cellular phones, and others as deemed necessary. Appropriate notifications and methods will be determined by the District-Wide School Safety Team. The Superintendent of Schools recognizes his/her responsibility to notify all educational agencies within the school district of a disaster and has established the following notification list:

In general, parent/guardian notification will be conducted by means of the phone tree of emergency contacts established in each school building or other mass notification system, Connect-Ed., However, in some cases it may be necessary to use other means such as local media. Prior arrangements have been established with the appropriate media.

The school district recognizes that many different types of emergency situations may arise resulting in emergency specific responses. A detailed listing of emergency responses is included in each Building-Level Emergency Response Plan, specifically addressing Criminal Offenses, Fire and Explosion, Medical Emergencies, Natural Hazards, System Failure and Technological Hazards. Each Building-Level Emergency Response Team will be responsible for reviewing and updating these responses and communicating them to students and staff. The following emergency situations are of prime importance:

Bomb Threats:

All school district administrators have familiarized themselves with the Bomb Threat Standards outlined in the Building-Level Emergency Response Plan so that appropriate decisions may be made depending on the exact nature of the situation. Depending on the nature of the emergency, the school district may need to obtain assistance from local government agencies. During an emergency the Incident Commander will contact 911 to obtain emergency services. Other agencies that may be contacted to obtain assistance may include the Red Cross, Fire Department, Local Police Department, Nassau County Office of Emergency (Commissioner), Nassau County Department of Mental Health, Nassau BOCES District Superintendent, Private

Industry Groups, Religious Organizations, among others. For specific assistance beyond the scope of the school district's resources, the Nassau County Office of Emergency Management will coordinate with State and Federal agencies and assist in all post-incident response. These contacts are clearly delineated in the Building-Level Emergency Response Plans.

District Resources Use and Coordination

Building-Level Emergency Response Plans will address the identification, availability, and use of resources. This will include procedures for coordination of these resources including manpower and Chain-Of-Command.

Protective Action Options

Building-Level Emergency Response Plans, which are confidential, address the following response actions as determined by the nature of the emergency. Specific response actions are explained in detail in each building plan:

- **School Cancellation** (Conditions warrant making a decision not to open schools)
- **Early Dismissal** (Conditions warrant returning students to their homes)
- **Evacuation** (Conditions in the building are unsafe warranting relocation)
- **Sheltering** (Conditions warrant movement to a safe place in the building)
- **Shelter-In-Place (weather related)**
- **Shelter-In-Place (Generic/Non-specific Bomb Threat)**
- **Shelter-In-Place (Specific Bomb Threat)**
- **Hold-In-Place** (Conditions warrant isolation of a specific area of the building – usually short-term)
- **Lockdown** (The most serious situation for a school – a threat is in the building)
- **Lockout** (A threat exists outside the school building or in the vicinity)

National Terrorism Advisory System (NTAS)

NTAS advisories – whether they be Alerts or Bulletins – encourage individuals to follow the guidance provided by state and local officials and to report suspicious activity. Where possible and applicable, NTAS advisories will include steps that individuals and communities can take to protect themselves from the threat as well as help detect or prevent an attack before it happens. Individuals should review the information contained in the Alert or Bulletin, and based upon the circumstances, take the recommended precautionary or preparedness measures for themselves and their families.

Bulletin:

Describes current developments or general trends regarding threats of terrorism.

Elevated Threat Alert:

Warns of a credible terrorism threat against the United States.

Imminent Threat Alert:

Warns of a credible, specific, and impending terrorism threat against the United States.

Individuals should report suspicious activity to local law enforcement authorities. Often, local law enforcement and public safety officials will be best positioned to provide specific details on what indicators to look for and how to report suspicious activity. The ***If You See Something, Say Something™*** campaign across the United States encourages the public and leaders of communities to be vigilant for indicators of potential terroristic activity, and to follow the guidance provided by the advisory and/or state and local officials for information about threats in specific places or for identifying specific types of suspicious activity.

Recovery – School District Support for Buildings

The Emergency Response Teams and the Post-Incident Response Teams will be supported in their efforts by all available indistrict resources and personnel as required by the nature of the emergency. County and State resources and personnel will be obtained as dictated by the nature of the emergency.

A School District Support Team will be available when necessary to assist all school buildings in their response effort. This Team will be composed of:

- Superintendent of Schools or Designee
- School Business Official
- Director of Facilities
- Transportation Coordinator
- Food Service Director
- Head Nurse
- Others as deemed necessary

Disaster Mental Health Services

The **Building-Level Emergency Response Team** will designate the **Post-Incident Response Team** in each school building to respond in crisis situations and help provide disaster mental health services as outlined in our **Building-Level Emergency Response Plan**. Depending on the scope of the situation, the Nassau County Office of Emergency Management and Department of Mental Health may be contacted to help coordinate a County or State-Wide effort.

Forms and Recordkeeping

The success of our Violence Prevention Program will be greatly enhanced by our ability to document and accurately report on various elements of the program along with training staff on our Plan. This will allow us to monitor its success and update the program as necessary. Forms, resources, and training materials have been developed for this purpose and can be obtained on the **Nassau Schools Emergency Planning Consortium Website** at:
